

## Lasting Benefit From Duffy

MISS MAE RODGERS

This lady suffered a long time from Bronchitis with no relief. She finally used Duffy's with great success. Several years ago she wrote as follows:

"For some time I was a sufferer from bronchitis and spent a great deal of money doctoring, until I heard through a friend of the wonderful merits of Duffy's Pure Malt Whiskey. Early in the fall I began taking it and since have been entirely free from the bronchial attack. I consider it my duty to thank you but have not enough words to say in praise of this wonderful Pure Malt Whiskey as a medicine that is good for everyone."—Miss Mae Rodgers.

Today she is well and strong with no return of bronchitis, as her recent letter proves: "My health is perfect. Am entirely cured of bronchitis trouble, but still continue to use Duffy's Pure Malt Whiskey as a tonic, and I recommend it to all my friends." Miss Mae H. Rodgers, 202 S. Grove St., E. Orange, N. J.

## Duffy's Pure Malt Whiskey

Is a life-sustaining agent in cases of emergency which no family medicine chest should lack. It is an absolutely pure distillation of clean, selected grain, carefully malted and so processed as to remove, as far as possible, all injurious elements. By its salutary effect upon the digestion it enriches the blood and builds body and muscle, and in the prevention and relief of coughs, colds, and stomach troubles it is very dependable. It makes the old feel young and keeps the young strong and vigorous. Heed the advice of thousands—

"Get Duffy's and Keep Well."

Get Duffy's from your local druggist, grocer or dealer \$1.00 per bottle. If he cannot supply you, write us, we will tell you where to get it. Medical booklet free.

Four years old James Packard of White River Junction played the part of a hero on April 8 when he rescued his six year old brother Alfred from drowning in the White River, at a point where the water was six feet deep. Unseen by the younger boy the elder slid down the bank into the river and the first James knew of his brother's predicament was when he saw a hand raised out of the water near the bank. Instead of going for help he rushed to the edge and when Alfred rose to the surface he grasped one of his hands digging his feet into the ground to get a firm hold. Then he managed to pull him out of the water.

We will print it right.
